Participant Information

Name:	
Gender:	
Date of Birth:	
Nationality:	
Country where you live and work now:	
Affiliation/organisation:	
E-mail address:	
Telephone and emergency contact details:	
Anything else we should know about you (allergies, diet, medical condition, special needs):	

Pre-workshop Activity

Prepare a short biography introducing yourself to our OER WikiEducator Community. (This can be conversational and informal as you might introduce yourself to a colleague.) If you're bold enough to create your user page in WikiEducator and enter your biography there, please do so otherwise, complete the template and email it. Hopefully the questions posed below will prompt some thought for you but if you prefer to write your biography in your own style feel free to do so.

Community

<p>Tell us about where you come from, your town, village, city etc. What excites you about the community you live in? What are the most critical needs of your community?</p>	
-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------	--

You

<p>Tell us a bit about you. What are your passions in life? How would you describe your technical (computer) skills? What is your particular area of expertise? What can you teach someone else to do? Things you're proud of in your life. Things you've yet to master in life.</p>	
--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------	--

Your Work

<p>Tell us a bit about the organisation you work for, what are its goals? What affiliations does it have with other organisations? Tell us about your job. What kinds of projects and initiatives have you been involved in? Projects you're involved in</p>	
--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------	--

Impact

<p>How do you think technology and the resources created with this technology will impact your community? Who would you share your skills and knowledge with? Who might they share this information with? Your social network links</p>	
-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------	--
